

TABLE OF CONTENTS (with instructions)

Files on GitHub

The README file is where you can see all the projects I have done. Use those links to save time when navigating projects.

Folders on GitHub

Inside the folders 1-3 there is just a link because the files are too large to store on GitHub. In this case, clicking the project links in the README file on the landing page is the best way to view the projects.

Inside folder 4 is the resume and paper.

Inside folder 5 is another project mentioned in the paper.

1. IBM Attrition (MBC 638)
 - a. [IBM Attrition Folder on gdrive.txt](#)
2. Serendipity Recovery (IST 659)
 - a. [Copy of Final Implementation Report Current.gdoc](#)
3. Microsoft Malware Predictions (IST 707)
 - a. [Microsoft Malware Predictions gDrive link.txt](#)
4. Masters Portfolio Requirements
 - a. [Benjamin Allen GitHub Resume March 2020.pdf](#)
 - b. [Exit Requirement Paper.pdf](#)
5. MyFirstMiniProject
 - a. [IST652_Mini_Project_Allen.ipynb](#)

On the README file there also is a link to another project for IST 719 named Airbnb Exploratory Analysis in New York City
